

Solar Hot Water System Incentive Program Application Form

This program is intended to encourage the installation of new solar water heating systems on Orange County residential and commercial buildings by offering an incentive of \$200. **The Orange County solar hot water system incentive program requires that participants comply with and provide the following:**

1. Property must be located in Orange County, Florida
2. Proof of an Energy Audit from Energy Audit provider (ex: utility provider), or Energy Audit Affidavit
3. Proof that solar hot water incentive was received from your utility provider, ex: utility bill with solar hot water credit
4. Application form, completed and signed
5. Proof of installation of a new system, date installed, and copy of paid invoice must be provided
6. Application form and supplemental materials must be received within six months of solar hot water system installation
7. Applications will be processed on date received priority basis and will continue as long as program funding is available
8. Only one incentive will be provided per building. **Only new systems installed on or after April 22, 2008 are eligible.** Pool systems are not eligible.
9. Allow 3-4 month process time for *complete* application packets. Incomplete application packets may take longer.
