Artist's Statement:

In my work I visualize an imaginary line, and combine the line with fragments of imagination, thoughts and objects, often strengthening or quieting that line by transforming from one medium into another. For me, environmental objects, i.e. fish, flowers, fruit insects, etc...., contain not only their beauty, but comparisons through line, color and light.

Along with creating a replica of an object, it becomes a challenge to create an illusion, as well as to destroy that same illusion.
