## ***Orange County Veterans' Service***

---

---

When you visit the Orange County Veterans' Service Office, *skilled counselors* will be able to assist you. They have a compassionate understanding of the problems which face veterans, their widow or widower, child, or dependent parent.

All of our counselors know the meaning, extent, and application of laws which affect veterans and their dependents, as well as the rules and regulations governing the functions and procedures of the United States Department of Veterans' Affairs (VA) which implement applicable laws. The counselors will apply their specialized knowledge and training in the best way suited to the needs of each client.

Counselors also provide information and assistance on the procurement of veteran related entitlements which may be available from other governmental agencies.

Counselors are available to address groups, attend informational events, or any other related veteran function in order to provide information, educational materials, or lend assistance upon request.
