

C.R. 535

Preliminary Engineering Study

Orange County Chairman
Richard T. Crotty

January 2003

District 1 Commissioner
Teresa S. Jacobs

Local Planning Agency Public Hearing

The Orange County Local Planning Agency (LPA) will conduct a Public Hearing on the preferred improvement concept for C.R.535. The project limits begin at Marleon Road and extend north approximately 3.5 miles to the Western Beltway, including a portion of Fiquette Road that extends approximately 1,950 feet south of C.R. 535. This Hearing is scheduled for Thursday, January 16, 2003 at the Orange County Administration Center, County Commissioner Chambers (1st Floor), 201 South Rosalind Avenue, Downtown Orlando. A brief presentation is scheduled to begin at 9:00 a.m. followed by an opportunity for citizens to comment on the preferred improvement concept developed during the preliminary engineering study process.

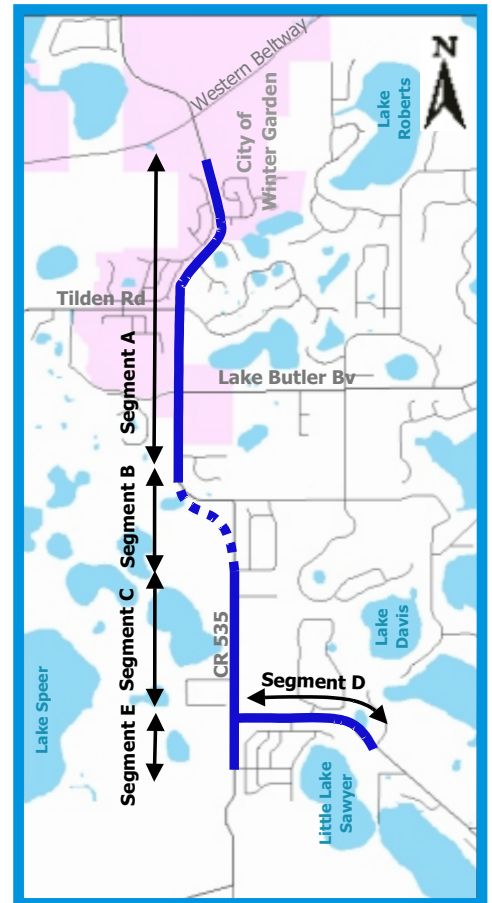

Preferred Improvement for C.R. 535

Orange County held the first public workshop for this project on September 10, 2001. Three additional public workshops were held on October 24, 2001, February 27, 2002, and October 16, 2002 respectively. During each of these meetings, project information was available for an informal review, and members of the study team were available to discuss individual concerns with citizens.

As a result of public input and technical evaluations, the preferred concept includes a four-lane divided roadway, with a five-foot sidewalk on the east side and a ten-foot multipurpose path on the west side of the corridor. The roadway section will also include landscaping, lighting and drainage improvements. Construction of Segment B is anticipated to begin in April of 2003, with the roadway improvements for this segment being completed within 9 months.

What's Next

Following the Local Planning Agency Hearing on January 16, the recommendation will go before the Orange County Board of County Commissioners for their approval. You will be notified through a newsletter regarding the date and time of the public hearing.
