

Art Glass in Orange County

Grace Covenant Presbyterian

Map #47

Churches

The church, built in 1970, made do with a window product consisting of fiberglass panels that encased a thin film on which a design could be printed. In the 1980s [John and Dee Branca](#), retired stained glass workers who became members, held classes and involved the church in recreating the Jesus in Gethsemene window at the front of the church in traditional stained glass. It took another 13 years to have the smaller side windows recreated in stained glass.

Grace Covenant Presbyterian

1655 Peel Ave.
Orlando, FL
