

Art Glass in Orange County

Orlando Museum of Art

Map #18

Museums, Studios & Galleries

In addition to featuring its critically acclaimed permanent collections of American art, art of the Ancient Americas and African art, the OMA is recognized for presenting temporary world-class exhibitions. One of these was Chihuly Across Florida in 2004, which at that time was the largest exhibition of the work of the world renowned glass artist [Dale Chihuly](#) ever shown. Thanks to the generosity of the law firm Lowndes, Drosdick, Doster, Kantor & Reed, Chihuly's monumental Citron Tower was acquired from the exhibition and placed on permanent loan at the OMA.

*In its continuing series of exhibitions of exceptional studio art glass, the OMA has Therman Statom's *Stories of the New World* on view January 10 - October 4, 2009. As Therman Statom's mentor and friend for many years, Dale Chihuly has had a great influence on the evolution of this internationally known African American artist's work. Statom's site-specific 6000 square foot, dazzling glass installation at the OMA was inspired by Ponce de Leon's search for the fabled Fountain of Youth.*

*In 2009 *Stories of the New World* is the centerpiece of a community-wide celebration of the importance of art glass in Central Florida involving collaborations with many other organizations, including the Charles Hosmer Morse Museum of American Art, Association to Preserve the Eatonville Community, Inc., The Zora Neale Hurston Festival of the Arts and Humanities, The Zora Neale Hurston National Museum of Fine Arts, Orange County Regional History Center, Millenia Fine Art Gallery, etc. Please go to the OMA's Web site for details about these collaborative programs and schedule of extensive related educational activities.*

Orlando Museum of Art
