

## Art Glass in Orange County

### First United Methodist Church Winter Park Map #7

#### Churches

*There are stained glass windows in both the sanctuary and the chapel. The sanctuary windows have traditional stained glass design, while the chapel windows are more contemporary. In the sanctuary two rose windows one above the altar and one above the balcony are complemented by 20 round clerestory windows depicting symbols of the Old Testament on one side and symbols of the apostles on the other side. The chapel windows, installed in 1980, were designed by [Rudy Nobis](#) and made of Blenko glass from West Virginia.*
