Petition Against Street Racing

The total lack of respect for innocent pedestrians and drivers on our public streets is apparent when street racers entice hundreds of cars and spectators during the night. To have them practice during daytime hours endangering many more lives is even worse. This has to stop.

The state law cannot come fast enough. The current draft calls for first offense at $250.00-$500.00 and revocation of driver's license for 2 years; second offense at $500.00 - $1000.00 first degree misdemeanor, revocation of driver license for 3 years; third offense at $2000.00 - $5000.00, third degree felony and revocation of driver's license for 5 years. If a death occurs, this should be taken into consideration as a more serious offense with harsher sentencing.

Representative Darren Soto has filed this bill and has backing in the Senate from Senator Lee Constantine. We need to rally our neighborhoods and gather a petition to support our lawmakers and get this law passed this year.

Orange County – District 4 Commissioner Linda Stewart will personally deliver this petition to Tallahassee when the bill is read.

We, the undersigned, are against all street racing and the spectators it draws

We, the undersigned, urge the state legislators to pass House Bill 843, the "Luis Rivera Ortega Street Racing Act," sponsored by Representative Darren Soto and the corresponding Senate Bill sponsored by Senator Lee Constantine
