

Art Glass in Orange County

Knowles Memorial Chapel

Map #12

Churches

Rose Window, 1934

*Dominating the west wall of the chapel, framed by the organ pipes in the balcony, is the stained-glass Rose Window designed and installed in 1934 by [Wilbur Herbert Burnham](#), the renowned glassmaker of Boston. The banner across the top panel of the window reads *Wisdom is Better Than Strength* - appropriate for the religious center of a college.*

The chancel east wall features two stained-glass windows on either side of the high altar that are themed Faith and Love depicting St. Augustine of Hippo and St. Francis of Assisi respectively. A half dozen other windows can be found on the various walls of the chapel depicting other saints.
