

# Art Glass in Orange County

## Emmanuel Episcopal Church

Map #22

### Churches

*The sanctuary and various parts of the church contain stained glass windows given as memorials by parishioners. The first windows installed were placed on either side of the entry door in the narthex in 1967, two years after the Sanctuary was completed.*

*The stained glass windows in The Dean Melville Johnson Memorial Chapel (named after Emmanuel's first rector) are from England. The sanctuary windows, created by [Willett Studios](#), are placed in series of threes, with the center window being the major event depicted. They trace the life, teachings, and miracles of Jesus, beginning at the northeast window and circling the sanctuary.*
