

# Art Glass in Orange County

## Atlantis Art Glass Studio

## Map #19

Museums, Studios and Galleries

Stained glass, fused glass and blown glass works are available along with classes, glass and supplies. [Rick Keppler](#) and [Suzanne Love Burks](#) are resident artists. Rick first made his acquaintance with the glass arts in his teenage years through friends that were passionate hot glass artists.

After an early career in corporate management he decided to make that back flip off of the diving board and pursue his art by opening this studio of his own.

Atlantis Art Glass Studio is the only Central Florida studio doing thermal art glass panels.

Rick Keppler's family moved from Long Island, NY to Colorado when he was six years old. His new friend's family were passionate hot glass artists, and he soon was involved in learning to work with hot glass. He apprenticed to a Native American master artist who ingrained into Rick a love of graphic arts and a very powerful sense of color. Glass was a stress-relieving hobby as he advanced in a management career in the automotive industry. At the age of 45, he re-evaluated, left the corporate world and opened his own studio.
