### Artist's Statement:

*My inspiration comes from nature and various cultures. Bowls and boxes constructed from glass beads add the luminescence of glass to painterly designs and patterns. Woven panels of glass beads can be matted and framed like pictures hanging on a wall, or framed and free-hanging as dividers of space, adding the interplay of light.*

*I design and create objects to feast the eyes and nourish the spirit; to bring forth a smile. I use natural materials like gourds and vines in my mixed media creations. The gourds are painted and inlaid with designs inspired by nature and various cultures. Natural and dyed rattan vines and other materials are woven into sculptural forms and traditional basketry designs.*
