

PLAN. PREPARE. BE READY!

www.ocfl.net/mobileapps

Orange County's free smartphone apps can notify you of emergency life-saving information as situations unfold.

OCFL Alert is a first-of-its-kind emergency notification app that delivers critical information during emergencies. Life-saving information includes shelter locations, water and ice distribution centers, evacuation routes, public service announcements and much more.

OCFL News provides you with breaking news about Orange County Government in action. Stay informed of important information and emergency news releases through push notifications.

OCFL 311 allows you to photograph, pinpoint and report problems from potholes to hazardous sidewalk cracks directly from your smartphone to Orange County's 311 Service Center. It also maps relevant community information and events that impact your neighborhood.

OC Serves allows citizens interested in volunteering to search and register for Orange County opportunities, track the time spent serving, add the event to their calendar and even share the event on social media. Posted categories include Children and Youth, Environment, and Public Safety and Health.

Don't have a smartphone?
You can still be OC Alert!

Receive emergency information directly to your email account or cell phone by registering with OCAAlert.net. OCAAlert sends emergency alerts, notifications and life-saving instructions from Orange County Government directly to a registered email account and registered wireless communications device such as cell phone, pager, Blackberry and smartphone.
