### View your drug list online

This document was last updated 09/01/2017.\* To see a current list of the medications covered on your plan’s drug list, visit:

**myCigna.com** - Once you’re registered, log in and select Estimate Health Care Costs, then select Get drug costs.

**Cigna.com/druglist** - Select your drug list name - Standard 3 Tier - from the drop down menu.

**Questions?** - Call the toll-free number on the back of your Cigna ID card. We’re here to help.

\* Drug list created: originally created 01/01/2004

Last updated: 05/15/2017, for changes that were effective 07/01/2017

Next planned update: 09/01/17, for changes that will be effective 01/01/2018

## Your prescription drug list

This drug list includes the most commonly prescribed medications covered by your plan as of January 1, 2018.<sup>1</sup> These generic and brand name prescription medications are approved by the U.S. Food and Drug Administration (FDA). Medications are listed by the condition they treat, then listed alphabetically within tiers, or coverage/cost levels.

This drug list is not a complete list of covered medications, and not all of the medications listed here may be covered by your specific plan. You should log into **myCigna.com** or check your plan materials to learn more about the medications your plan covers.

## How to read your drug list

Use the sample chart below to help you understand this drug list.

TIER 1 \$	TIER 2 \$\$	
<b>BLOOD PRESSURE/HEART MEDICATIONS</b>		
afeditab CR	Berinert* (PA)	
amlodipine besylate	Bidil	
amlodipine besylate-benazepril	Bystolic	
amlodipine-valsartan	Cinryze* (PA)	
amlodipine-valsartan-HCTZ	Coreg CR	
atenolol	Cozaar (ST)	
atenolol-chlorthalidone	Diovan (ST)	
benazepril	Diovan HCT (ST)	
benazepril-HCTZ	Edarbi (ST)	
candesartan cilexetil	Edarbyclor (ST)	
cartia XT	Exforge	
carvedilol	Exforge HCT	
clonidine	Firazy* (PA)	
digitek	Hemangeol	
digox	Inderal LA	
digoxin	Inderal XL	
diltiazem ER	Innopran XL	
diltiazem CD	Lotrel	
diltiazem	Micardis (ST)	
dilt-XR	Multaq	
enalapril	Nitro-dur	
flecainide acetate	Nitrolingual	
hydralazine	Nitromist	
irbesartan	Nitronal	
isosorbide mononitrat	Nitrostat	
	Northera* (PA)	
	Norvasc	
	Ranexa (ST)	
	Tekturna	
	Tekturna HCT	

**Tier** (coverage/cost level) gives you an idea of the cost level you may pay for a medication

Medications are grouped by the **condition** they treat

Medications in each column are listed in **alphabetical** order

**Specialty medications** have an asterisk listed next to them

Brand name medications are **capitalized**

Generic medications are **lowercase**

Medications that require approval for coverage or have limits will have an **abbreviation** listed next to them

For illustrative purposes only.

## Here's more helpful information on how to read this drug list:

### Tiers

Covered medications are divided into tiers, or coverage/cost levels. The tier the medication is listed in determines how much you'll pay when you fill the prescription. Typically, the higher the tier, the greater the cost of the medication.

› <b>Tier 1 - Typically Generics</b>	(Lower-cost medication)	\$
› <b>Tier 2 - Typically Preferred Brands</b>	(Medium-cost medication)	\$\$
› <b>Tier 3 - Typically Non-Preferred Brands</b>	(Higher-cost medication)	\$\$\$

### Abbreviations next to medications

Some medications on your drug list have special requirements before they may be covered by your plan. This helps to make sure you're receiving coverage for the right medication, at the right cost, in the right amount and for the right situation. These medications will have an abbreviation next to them in the drug list. Here's what each of the abbreviations mean.

<b>(PA)</b>	<b>Prior Authorization</b> - Your doctor has to provide Cigna with information about why you need to use this medication. The medication will only be covered if your doctor requests and receives approval from Cigna.
<b>(ST)</b>	<b>Step Therapy</b> - Certain high-cost brand name medications are part of the Step Therapy program. These medications aren't covered unless your doctor requests and receives approval from Cigna. Step Therapy encourages the use of lower-cost, clinically appropriate medications to treat your condition. These are typically generics or preferred brands. You have to try these medications first before your plan covers higher-cost brands.
<b>(QL)</b>	<b>Quantity Limits</b> - For some medications, your plan only covers up to a certain amount over a certain number of days. For example, 30mg per day for 30 days. Your plan will only cover a larger amount if your doctor requests and receives approval from Cigna.
<b>(AGE)</b>	<b>Age Requirements</b> - You must be within a specific age range for this medication to be covered.

### Brand name medications are capitalized

In this drug list, brand name medications are capitalized and generic medications begin with a lowercase letter.

### Specialty medications are marked with an asterisk

Specialty medications are used to treat complex conditions like multiple sclerosis, hepatitis C and rheumatoid arthritis. In this drug list, specialty medications are marked with an asterisk (\*). Some plans may cover these medications on a specialty tier and/or require the use of a preferred specialty pharmacy. Log into **myCigna.com** or check your plan materials to learn more about how your plan covers specialty medications.

## No cost-share preventive medications are marked with a plus sign

Health care reform under the Patient Protection and Affordable Care Act (PPACA) requires that most plans cover certain categories of medications and other products as preventive care services. In this drug list, medications with a plus sign (+) next to them may be available to you at no cost-share (copay, coinsurance and/or deductible). Log into **myCigna.com** or check your plan materials to learn more about how your plan covers preventive medications.

## Plan exclusions

Some medications shown in this drug list may not be covered by your specific plan. For example, medications used for weight loss or to treat infertility may not be covered. In this drug list, these medications have a caret (^) next to them. Log into **myCigna.com** or check your plan materials to learn more about how your plan covers these medications.

## How to find your medication on the drug list

Look for your condition in the alphabetical list below. Then go to that page to see the list of covered medications available to treat the condition.

AIDS/HIV	6	EYE CONDITIONS	10, 11
ALLERGY/NASAL SPRAYS	6	FEMININE PRODUCTS	11

^^ These medications require approval from Cigna before they're covered by your plan. If your doctor feels that an alternative medication isn't right for you, he or she can ask Cigna to consider approving coverage of your medication.

## Prescription drug list FAQs

We want to make sure you understand your prescription drug coverage so you can get the most from your pharmacy benefit. Below are answers to some of the most commonly asked questions about the Cigna Prescription Drug List.

### Why do you make changes to the drug list?

Cigna regularly reviews and updates the prescription drug list. We make updates to the drug list for many reasons, like when new generics become available, medications are no longer available or when medication prices change. For example, the price of a brand name medication may increase much more than other medications that treat the same condition. When that happens, we may try to find lower-cost generic or “preferred brand” alternatives that are just as safe and effective as the higher-cost brand. These changes may include:<sup>1</sup>

- › Moving a medication to a lower cost tier. This can happen at any time during the year.
- › Moving a medication to a higher cost tier when a generic becomes available. This can happen at any time during the year.
- › Moving a medication to a higher cost tier or no longer covering a medication. This typically happens twice per year on January 1st and July 1st.
- › Adding requirements to a medication. For example, requiring approval from Cigna before a medication is covered or adding a quantity limit to a medication.

When a medication changes tiers or is no longer covered, you may have to pay a different amount to fill that medication.

### Why aren't some medications covered on my drug list?

Some high-cost medications have clinically appropriate alternatives. Meaning, they work the same or similar to another covered prescription medication or over-the-counter (available without a prescription) alternative. To help lower your overall health care costs, these high-cost medications are not covered. If your doctor feels an alternative medication isn't right for you, he or she can ask Cigna to consider approving coverage of your medication.

We also do not cover medications that aren't approved by the U.S. Food and Drug Administration (FDA).

### How do you decide what medications are covered?

The Cigna Prescription Drug List is developed in cooperation with Cigna's Pharmacy and Therapeutics Committee, a panel of practicing doctors and pharmacists, most of whom work outside of Cigna. Every medication available on the drug list has been approved by the FDA. The Pharmacy and Therapeutics Committee uses medical resources and references on the safety and efficacy of prescription medications, and doesn't consider finances. The committee's findings are based on clinical evidence and are shared with a separate business decision team. The business team reviews their findings and other factors when deciding the placement of the medication on the drug list. Our goal is to provide access to coverage for safe, clinically effective and low-cost medications.

### What medications are covered under the health care reform law?

The Patient Protection and Affordable Care Act, commonly referred to as “health care reform,” was signed into law on March 23, 2010. Under this law, certain preventive medications (including some over-the-counter medicines) may be available to you at no cost-share (\$0), depending on your plan. Log into **myCigna.com** or check your plan materials to learn more about how your plan covers preventive medications. You can also view the No Cost-Share Preventive Medications drug list on **Cigna.com/druglist**.

For more information about health care reform, visit **www.informedonreform.com** or **Cigna.com**.

### Are medications newly approved by the FDA covered on my drug list?

Newly approved medications may not be covered on your drug list for the first six months after they receive FDA approval. These include, but are not limited to, medications, medical supplies or devices covered under standard

## Prescription drug list FAQs (cont)

pharmacy benefit plans. We review all newly approved medications to determine if should be covered, and if so, at what tier level. If your doctor feels a currently covered medication isn't right for you, he or she can ask Cigna to consider approving coverage of the newly approved medication.

### How can I find out how much I'll pay for a specific medication?

Use the Drug Cost tool on [myCigna.com](https://mycigna.com) to learn how much your medication may cost and view lower cost alternatives, if available.

### How can I save money on my prescription medications?

You may be able to save money by switching to a lower-cost medication or by filling a 90-day supply, if your plan allows. Talk with your doctor to see if a lower-cost medication, or 90-day supply, may work for you.

### What's the difference between brand name and generic medications?

The FDA requires generic medications to have the same quality and performance as brand name medications. A generic medication is the same as a brand name medication in dosage form, active ingredient, strength, route of administration, quality, performance characteristics and intended use. Generics typically cost much less than brand name medications – in some cases, up to 80%–85% less.<sup>2</sup> Just because generics cost less than brands, it doesn't mean they're lower-quality medications.

### How can I get help with my specialty medication?

Cigna Specialty Pharmacy Services<sup>SM</sup> can help you manage your health and prescription needs.<sup>3</sup> Our therapy management teams, made up of health advocates with nursing backgrounds and pharmacists, provide personalized, 24/7 support. They offer condition-specific education on medication therapy and side effects, help manage the approval process and offer financial assistance programs if you need help paying for your specialty medication.

Call us at **800.351.3606** if you have questions or need help transferring your prescription. You can also go to [cigna.com/specialty-pharmacy-services](https://cigna.com/specialty-pharmacy-services) to learn more.

### Can I fill my prescriptions by mail?

If you take a medication every day to treat an ongoing health condition, you can order up to a 90-day supply through Cigna Home Delivery Pharmacy.<sup>SM 3</sup> To get started, call us at **800.835.3784** or go to [cigna.com/home-delivery-pharmacy](https://cigna.com/home-delivery-pharmacy).

### Where can I find more information about my prescription drug plan?

Use the online tools and resources on [myCigna.com](https://mycigna.com) or the [myCigna app](https://mycigna.com)<sup>4</sup> to help you better understand and manage your pharmacy benefits. You can view your drug list or search for a specific medication, use Drug Cost tool to estimate how much your medications may cost, find a pharmacy in your network and review your pharmacy claims and payment history.

## Exclusions and limitations

Health benefit plans vary, but in general to be eligible for coverage a drug must be approved by the Food and Drug Administration (FDA), prescribed by a health care professional, purchased from a licensed pharmacy and be medically necessary. If your plan provides coverage for certain preventive prescription drugs with no cost-share, you may be required to use an in-network pharmacy to fill the prescription. If you use a pharmacy that does not participate in your plan's network, the prescription may not be covered. Certain drugs may require prior authorization, or be subject to step therapy, quantity limits or other utilization management requirements.

Plans generally do not provide coverage for the following under the pharmacy benefit, except as required by state or federal law, or by the terms of your specific plan:<sup>5</sup>

- › over-the-counter (OTC) medications (medications that do not require a prescription) except insulin unless state or federal law requires coverage of such drugs;
- › prescription drugs or supplies for which there is a non-prescription or OTC therapeutic alternative;
- › physician-administered injectable medications covered under the Plan's medical benefit, unless otherwise covered under the Plan's prescription drug list or authorized by Cigna;
- › implantable contraceptive devices covered under the Plan's medical benefit;
- › medications that are not medically necessary;
- › experimental or investigational medications, including FDA-approved drugs used for purposes other than those approved by the FDA unless the drug is recognized for the treatment of the particular indication;
- › medications that are not approved by the Food & Drug Administration (FDA);
- › prescription and non-prescription devices, supplies, and appliances other than those supplies specifically listed as covered;
- › medications used for fertility, sexual dysfunction, cosmetic purposes, weight loss, smoking cessation, or athletic enhancement;
- › prescription vitamins (other than prenatal vitamins) or dietary supplements unless state or federal law requires coverage of such drugs;
- › immunization agents, biological products for allergy immunization, biological sera, blood, blood plasma and other blood products or fractions and medications used for travel prophylaxis;
- › replacement of prescription drugs and related supplies due to loss or theft;
- › drugs which are to be taken by or administered to a covered person while they are a patient in a licensed hospital, skilled nursing facility, rest home or similar institution which operates on its premises or allows to be operated on its premises a facility for dispensing pharmaceuticals;
- › prescriptions more than one year from the date of issue; or

In addition to the plan's standard pharmacy exclusions, certain new FDA-approved drug products (including, but not limited to, medications, medical supplies or devices that are covered under standard pharmacy benefit plans) may not be covered for the first six months of market availability unless authorized by Cigna as medically necessary.

**Cigna reserves the right to make changes to the Drug List without notice. Your plan may cover additional medications; please refer to your enrollment materials for details. Cigna does not take responsibility for any medication decisions made by the doctor or pharmacist. Cigna may receive payments from manufacturers of certain preferred brand medications, and in limited instances, certain non-preferred brand medications, that may or may not be shared with your plan depending on its arrangement with Cigna. Depending upon plan design, market conditions, the extent to which manufacturer payments are shared with your plan and other factors as of the date of service, the preferred brand medication may or may not represent the lowest-cost brand medication within its class for you and/or your plan.**

1. State laws in Texas and Louisiana require your plan to cover your medications at your current benefit level until your plan renews. This means that if your medication is taken off the drug list, is moved to a higher cost-share tier or needs approval, your plan can't make these changes until your renewal date. To find out if these state laws apply to your plan, please call Customer Service using the number on the back of your ID card.
2. U.S. Food and Drug Administration (FDA) website, "Understanding Generic Drugs." Retrieved 08/01/2017.
3. Plans vary, so some plans may not include Cigna Specialty Pharmacy Services or Cigna Home Delivery Pharmacy. Please check your plan materials for more information on what pharmacies are covered under your plan.
4. The downloading and use of the myCigna app is subject to the terms and conditions of the app and the online stores from which it is downloaded. Standard mobile phone carrier and data usage charges apply.
5. Costs and complete details of the plan's prescription drug coverage are set forth in the plan documents. If there are any differences between the information provided here and the plan documents, the information in the plan documents takes complete precedence.
