ENGINEERING THE FUTURE OF ORANGE COUNTY

BROCHURE REVISED APRIL 2016
Any tree trimming required around streetlights should be referred to the appropriate power company serving the area in question.

Crews may provide notice using door hangers if extensive trimming will be done in your area or on right-of-way property adjacent to private property. This notice may be provided in case citizens wishes to trim the vegetation on their own.

**MOWING COUNTY RIGHTS-OF-WAY**

The Orange County Roads & Drainage Division routinely mows right-of-ways and secondary drainage ditches on a four-to-six-week mowing cycle when the weather permits. Sidewalks and curbs are edged during every mowing cycle.

**TREE & VEGETATION TRIMMING**

The Roads & Drainage Division trims trees and other vegetation so as not to interfere with the safe passage of pedestrians or vehicles in public right-of-ways. Trees are trimmed to a height of 14-feet over roadways and 10-feet over sidewalks.

We also trim them so they do not hang over the sides of roads, sidewalks, or block traffic lights. Vegetation is also trimmed so as not to impair the clear sight distance of a driver approaching the roadway from side streets and driveways. To provide a clear sight distance, we trim vegetation obstructing the driver’s view between three-feet and six-feet in height.

Any tree trimming required in an utility easement (because of interference with either the power or phone lines) needs to be referred to the appropriate utility company.
