MONTHLY NEWSLETTER - September 30, 2024

Orange County Government received \$219 million in federal disaster recovery funding (CDBG-DR funds) to help communities in hard-hit areas recover from Hurricane Ian. Orange County aims to provide our residents and community partners with the most up to date information as the County moves forward with its implementation of the CDBG-DR programs.

To achieve this, a monthly newsletter containing the latest CDBG-DR program updates will be released on the last calendar day of each month. We encourage you to share this newsletter with your friends, family, colleagues, and anyone else who, you believe, might benefit from this information. This month, we are focusing on the CDBG-DR Planning Studies Program.

Please visit our website at www.ocfl.net/CDBG-DR for more information about the CDBG-DR Program, timeline, and other related information.

Orange County is preparing to roll out the CDBG-DR Planning Program through a competitive Request for Applications (RFA) process. Orange County has set aside a total of \$5,000,000 (2.3% of the total CDBG-DR allocation) for Planning Activities. The funding will be available to Orange County Departments and Divisions, local jurisdictions, and other units of government to fund the costs of data gathering, studies, analysis, preparation of plans, and additional planning efforts that may result in the establishment of recovery and resiliency priorities and activities or support the design and implementation of the County’s CDBG-DR programs. Refer to [24CFR 570.205](#) for more eligible activities.

This program will focus on developing comprehensive strategies to address the County's unique challenges and opportunities post-disaster, to ultimately support the County’s programs, services, neighborhoods, and communities.

More information will be available on Orange County’s CDBG-DR website: [HERE](#) (information will be posted in 2-3 weeks).
