Neighborhood Organization Directory by Districts

Introduction:

The Neighborhood Organization Directory (NOD) provides access to an extensive network of neighborhood groups and community organizations with varied and valuable experiences to share. We hope you find the information contained in this directory useful and beneficial to your neighborhood. We encourage all neighborhood organizations within Orange County to be a part of the NOD. The Neighborhood Services Division uses the directory as its formal neighborhood mailing list. Mailings include notices of community meetings, special events-such as the annual Orange County Community Conference, monthly Community Connections Workshops, the Neighborhood Beautification Grant information, important emergency response information and public notices. Other County divisions also use the directory to notify the public about rezoning hearings, road projects, traffic improvements and new development. To include your neighborhood organization in the directory, simply complete the registration form in the back of this publication or register online at: www.ocfl.net/neighborhoods.

This directory is separated into the current Orange County Commission Districts with the neighborhood organizations distributed accordingly. However, an alphabetical index of all neighborhood organizations listed is available in the back of this publication.

The NOD is updated annually on a yearly basis and some data may be outdated due to ongoing board member changes within the neighborhood and community organizations. Also note that a number of organizations have opted not to be listed in this printed publication. This directory is produced annually and every effort is made to accurately include all up-to-date information that has been provided to the Orange County Neighborhood Services Division. If you find an error, please inform our office at 407-836-4200.
