

Section 2: Health Insurance Subsidies

Florida Retirement System Health Insurance Subsidy

The Florida Retirement System (FRS) provides eligible retirees with a health insurance subsidy (HIS) to help offset the cost of medical insurance premiums. Proof of insurance will be requested by the FRS when you apply for the subsidy. Once satisfied, the Division of Retirement will pay \$7.50 for each FRS year of service, excluding time in DROP, not to exceed \$225.00. The subsidy amount will be added to the retiree's FRS benefit payment each month.

Eligibility for Pension Plan Retirees

You must meet the FRS normal or early retirement requirements to be eligible for the FRS health insurance subsidy.

Eligibility for Investment Plan Retirees

- ❑ You must have at least six years of FRS service (or 8 years if hired on or after 7/1/2011); and
- ❑ You must meet the normal FRS pension plan age or service retirement requirements; and
- ❑ Must have taken a distribution from your investment account

Note: If you leave FRS employment and take a distribution prior to the normal retirement age or date, you must wait until the normal retirement age to begin receiving your HIS benefit.

Enrollment

- ❑ Shortly before your first pension check, retirees under the Pension Plan or terminating from DROP will receive a packet in the mail from FRS. The packet will contain:
 - FRS Health Insurance Subsidy Application
 - Direct Deposit Form and
 - Withholding Preference Certificate
- ❑ Investment Plan retirees are responsible for requesting the FRS Health Insurance Subsidy Application from FRS (if eligible). **FRS will not automatically send the application to you.** You may request the form when requesting your first distribution.

Income Taxes on Your Health Insurance Subsidy (HIS)

Your HIS benefit is taxable income, but you may not have to pay income taxes on all or part of your HIS if your health insurance premiums are deducted each month from your retirement FRS benefit payments.

The amount of your HIS payments excludable from taxable income is based on the total of your HIS payments and your total health insurance premium amount paid during the calendar year. If your health insurance premium is more than your HIS payment, your entire annual HIS amount will be excluded from your taxable income. However, if your health insurance premium is less than your HIS payment, only the portion of the HIS payment equal to the health insurance premium deducted will be excluded from your taxable income. The remaining portion of your HIS payment is treated as taxable income. *One exception applies: Although Medicare coverage qualifies you to receive the HIS, the IRS does not allow you to treat your Medicare premium payments as tax-exempt income. The FRS determines your eligibility for the HIS tax exclusion before preparing your Form 1099-R and adjusts your taxable income amount accordingly. 1099-R Forms are issued by FRS in January, for additional questions please contact FRS directly.*
